SUMMARY

Full-stack developer with hands-on experience in React, FastAPI, PostgreSQL, and MongoDB, building scalable and secure web applications at Fladdra Technologies. Skilled in REST API development, responsive dashboards, and AI-powered features using LangChain and Gemini across real-world projects.

TECHNICAL SKILLS

Frontend – HTML, CSS, JavaScript, React JS, TypeScript, Material UI (MUI)
Backend - Python, FastAPI, Django (Basic), REST APIs
Database - PostgreSQL, MongoDB
AL/ML – LangChain
Tools - Git, GitHub, Bitbucket, Jira, Linux

EXPERIENCE

Full Stack Developer Jan 2025 – Present
Fladdra Technologies *Pune, India*
- Engineered responsive UI components in React.js, improving page load time and user engagement by 30%.
- Designed and deployed RESTful APIs with FastAPI, enabling secure authentication and smooth data operations across the platform
- Architected and optimized admin & user panels, reducing manual operations by 40%.
- Collaborated with cross-functional teams to integrate frontend and backend features, ensuring a seamless user experience.

PROJECTS

Panasonic Digital Returns Sep 2025
Tech Stack: React, Django, PostgreSQL
- Developed backend APIs using Django + DRF for Panasonic's digital return system (React + Tailwind), improving workflow automation.
- Implemented modules for inspection creation, segregation, and RTV management.
- Developed React & React Native dashboards for inspection tracking and submissions.

CareerView (Live Project) Feb 2025
Tech Stack: React, FastAPI, MongoDB, LangChain
- Built an AI-driven mock interview & video assessment platform with dynamic Q&A generation.
- Implemented real-time transcription & scoring pipelines for students and trainers.
- Designed performance dashboards for monitoring career progress.

Hospital Management System (Live Project) Mar 2025
Tech Stack: React, FastAPI, MongoDB, JWT Authentication
- Developed a hospital management system with secure role-based authentication.
- Integrated an AI chatbot using Gemini to improve query resolution by 40%.
- Designed admin dashboards for real-time record tracking.

CloudsNetworking (Live Project) Apr 2025
Tech Stack: React, FastAPI, PostgreSQL
- Developed REST APIs for courses, syllabus, blogs, feedback & authentication.
- Integrated email automation for contact forms and enrollments.
- Created responsive Admin & User panels for simplified workflow management.

CERTIFICATE

Python Web Development Bootcamp: From Beginner to Full-Stack Developer Apr 2025
Link: udemy.com/certificate/UC-906f256e-563b-4571-8f1e-897232bb36c3

EDUCATION

Bachelor of Science In Computer Applications
Savitribai Phule Pune University — Pune 2024 – Present
